- Tools: J*avaScript, Node, MySQL, Handlebars, Bulma*

Note Taker | Front-end Web Application
- Built a sleek web application designed to help users manage mental health by keeping track of their tasks and thoughts. It features a list of saved notes and interactive buttons throughout the application.
- Front-end developer
- Tools: *JavaScript, HTML, CSS*

Experience

Social Media Manager/ Transaction Coordinator   2023-Current
The Olmedillo Group   Miami, FL
- Develop and publish innovative social media content on a weekly basis, resulting in an 86% expansion in engagement and reach, and ultimately causing a surge in lead conversions and sales growth.
- Establish a quality assurance framework to increase team efficiency and effectiveness in real estate transactions between our client and third parties with a focus on maintaining and enforcing deadlines.

Animal Care Manager   2022-2023
Aguacate Sanctuary of Love   Miami, FL
- Successfully obtained non-profit status for the sanctuary through the IRS, demonstrating strong reliability, documentation, and regulatory compliance skills.
- Effectively planned, marketed, and led fundraising events to generate over $700 in revenue for the organization within a span of two months.

- Directed sanctuary operations by supervising a team of six staff members and coordinating with a diverse group of rotating volunteers. Evaluated and enhanced animal welfare standards utilizing leadership, teamwork, and project management skills.

Lead Dog Trainer   2021-2022
Dances With Dogs   Miami, FL
- Developed tailored behavioral plans for pets by analyzing client's unique needs.
- Designed and distributed over 20 unique educational handouts for pet parents, highlighting user-friendly informative design techniques.
- Interacted with an average of 5 clients per day, honing skills in communication and the capacity to empathize and address diverse client needs.

Interpretive Programs Attendant   2018-2021
Zoo Miami   Miami, FL
- Designed and implemented comprehensive training documentation to enhance the zoo's internship program and provide more opportunities for those entering the field.
- Maintained daily records of animal behavior, training progress, and health logs, with an emphasis on attention to detail and data integrity.
- Created personalized environmental enrichment for over 20 species of animals to increase their quality of life by utilizing creative problem-solving skills.

Robotics Mentor   2015-2019
School for Advanced Studies | Ransom Everglades   Coconut Grove, FL
- Ignited passions in students by mentoring them in the design, construction, and programming of robots, sparking curiosity and building their interest in STEM fields.
- Cultivated a "coopertition" mindset where opposing teams of diverse students collaborated on their robot's development, promoting effective communication and sportsmanship to drive innovation.
- Led easy-to-follow workshops and presentations to explain technical robotics concepts to students from grades 4-12.
- Cultivated partnerships with local schools and businesses who provided crucial financial and in-kind support to promote STEM programs and the robotics team's endeavors.
